I have made some Custom Queries that I need to expose to all users in my projects so that we all get used to looking at the same "dashboards"

How can I do this please?

#2 - 06/13/2013 12:54 PM - Marc Mengel

Lucas,

If you bring up the query, and hit the Edit / (pencil icon) link, there is a checkbox on it to make it "Public". Check the box, save it, and it should show up for everybody. (see for example "test1" on the Fermi Redmine Project issue tracker.)
